OF THE PEOPLE YOU LOVE

HAVE A HYGIENIC LATRINE
FOR YOUR FAMILY’S PEACE OF MIND
DON’T FEED YOUR CHILDREN FISH CAUGHT IN WATER CONTAMINATED WITH FECES!

DO YOU THINK IT IS FINE TO FEED FISH FECES?
How does it feel to know that the fish your children are eating was fed with human feces?
It’s disgusting! Also, your children may get diseases such as worms, diarrhea, etc.
That is why the government has banned fishpond latrines so that we all can enjoy clean and safe fish.
DON’T LET CHILDREN SWIM IN WATER CONTAMINATED BY HANGING LATRINES!

DO YOU THINK IT IS FINE TO DEFCATE INTO RIVERS AND PONDS?

It’s not! Human feces can dissolve and pollute the water. When kids swim in rivers and ponds the feces will get in their mouths and noses, and on their skin. It is very dirty and may cause diseases. Protect your children! Stop defecating into rivers!
DON’T LET THE ELDERLY AND CHILDREN FACE DANGERS!

DO YOU REALLY THINK A HANGING LATRINE IS EASY TO USE?

It’s not! Elderly and children can fall in and get hurt or even drown, especially when it rains or at night.

Stop using fishpond latrines!

HAVE A HYGIENIC LATRINE FOR YOUR FAMILY’S PEACE OF MIND
DON’T LET WOMEN FEEL EMBARRASSED!

DO YOU THINK IT IS FINE TO HAVE TO GO TO THE TOILET RIGHT IN FRONT OF OTHERS?

It’s not! Women feel ashamed and embarrassed and risk being harassed. Men, protect your wives and daughters. Stop using hanging latrines!

HAVE A HYGIENIC LATRINE FOR YOUR FAMILY’S PEACE OF MIND
BE A GOOD EXAMPLE AND A GOOD NEIGHBOR

YOU ARE A GOOD NEIGHBOR!

If all households have a hygienic latrine, the whole village will be clean and safe.

Do not hesitate!

Help each other build a hygienic latrine right now!
TYPES OF LATRINE

EVERY HOUSEHOLD CAN BUILD ONE!

SUPERSTRUCTURE

The upper part providing users with protection from the rain and sun, and privacy. The superstructure can be built with palm leaves, bamboo or wood in combination with sheet metal, canvas, bricks or concrete.

LINING AND SUBSTRUCTURE

Used to collect and dispose of human faeces, prevent animal and insect exposure to faeces; kill pathogens inside the faeces, prevent unpleasant odors which contaminate the environment. The septic tank can be built using bricks, concrete, or plastic.
